

**Hi-Cap Rainwater System** BS EN 12200 - 1:2000 (Downpipes & fittings)

- A semi-elliptical profile.
- High capacity - ideal for large roof areas.
- Pre-fitted gutter seal retaining clip system for fast user friendly installation.
- The high flow rate could result in less outlets and reduced drainage runs.
- Both 68mm and 80mm round downpipes can be connected to the gutter system.

**Colours**

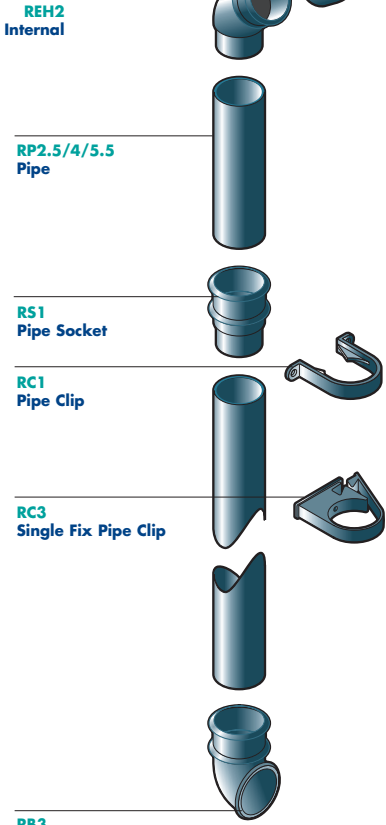

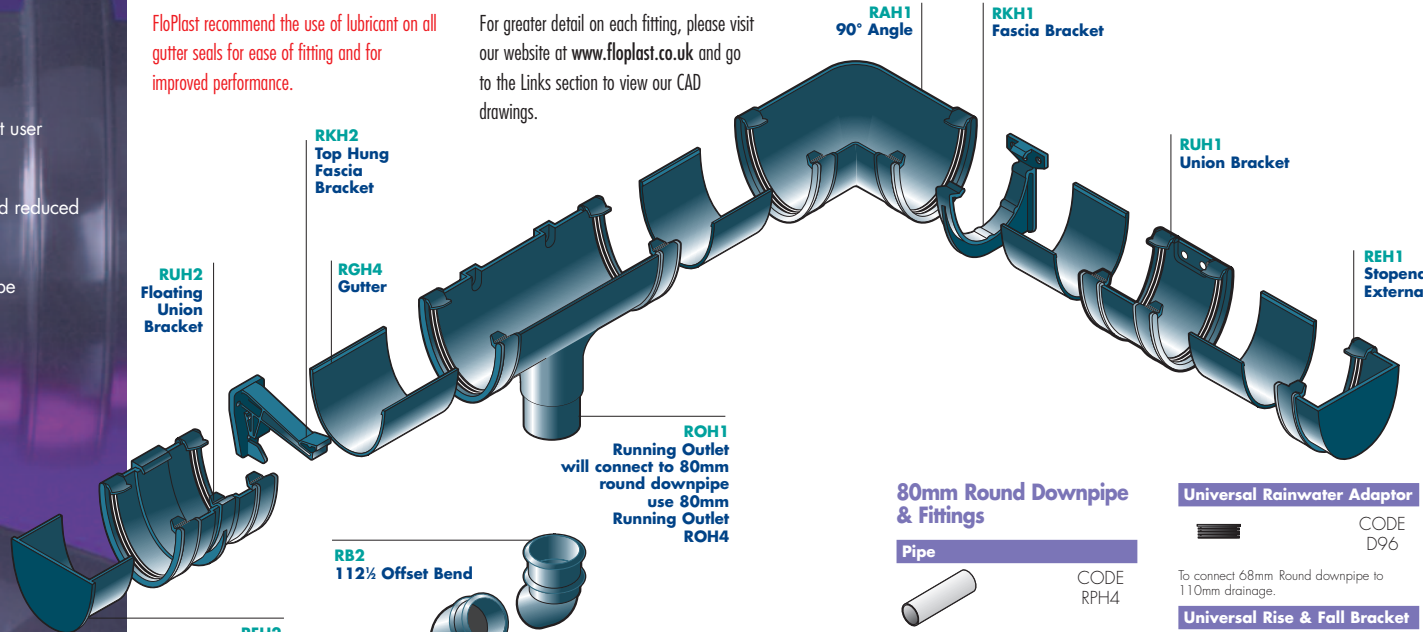

\*68mm round downpipe not available in Sand.

**Dimensions (mm)**

FloPlast recommend the use of lubricant on all gutter seals for ease of fitting and for improved performance.

For greater detail on each fitting, please visit our website at [www.floplast.co.uk](http://www.floplast.co.uk) and go to the Links section to view our CAD drawings.

PVC-U Style Rainwater Systems come with a 10 year performance & colour guarantee.

(Black, White and Brown only)

BS EN 607:2004 (Gutters & fittings)

BS EN 1462:2004 (Eaves brackets)

**Product Guide**
