GUTTERBRUSH

WEATHER PROTECTION SYSTEM

Clearing out your gutter can be a mucky job, but now there is an easy way to stop your gutters from getting blocked - without the need to call out a professional to clean them. You simply need FloPlast GutterBrush.

FloPlast GutterBrush is a gutter filter that fits easily into your rainwater system, designed to keep it clear from debris such as moss and leaves all year round, whilst still allowing water to flow freely.

It is easy to install; simply remove any debris, then lay the FloPlast GutterBrush in the gutter and cut where required.

- Simple to install.
- GutterBrush will flex to fit virtually any shaped gutter system.
- Prevents debris such as moss/leaves/twigs/seeds from blocking the gutter.
- Prevents bird nuisance.
- Can be cleaned easily.
- Made from high quality Polypropylene filaments securely fixed into a flexible central rust-free stainless steel core.
- Low maintenance.
