

# FLOGUARD

## WEATHER PROTECTION SYSTEM

This innovative product prevents the entry of leaves into most PVC gutters (not MiniFlo or XtraFlo), allowing for a non restrictive flow of rainwater. This easy-fit system will also help with prevention of blockages and ensures that the gutters retain their optimum performance.

### Features

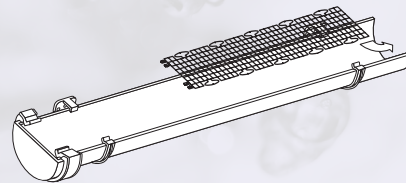

- Suitable for gutter widths 100mm-115mm.
- Prevents blockage from leaves and other debris.
- Easy to fit 5 metre pack (10 x 500mm lengths).
- Clips together, no screws required.
- Manufactured in tough polypropylene.

## INSTALLATION

IN 3 EASY STEPS

1. Place FloGuard under existing support brackets.

2. Push clip system together to extend the installation run.

3. To complete the run, trim final FloGuard section to required length, this can be done with a pair of scissors.
