

PVC-UE Window Trims

The **FloPlast** range of Fascia and Soffits, when used in conjunction with the window system trims of quadrants, skirtings and architraves, provide the means to achieve a high quality dry fix finish to window openings and rooms.

Our flat back 6mm pencil round range of architraves produce an aesthetically pleasing finish to your room. The product is suitable for internal and external use. It is traditionally used for skirting, covering broken plaster around windows and for joints around door linings.

Flexible angles 25mm, 35mm and 75mm wide, have a nitrile modified PVC joint and are suitable as a cover trim for bay window mullions.

During installation it is important that the products in the **Window System Trims** are fixed to a dry and sound substrate. Ensure that the profiles are mitred for external corners and scribe and cut for internal corners. All joints should be fixed using a suitable adhesive or silicone sealant.

Cellular PVC-UE has a thermal expansion similar to rigid PVC, so if secured correctly there should be no relative movement of individual profiles.

When used in accordance with the manufacturers instructions neoprene/rubber solutions, silicone sealant and anaerobic adhesives are suitable for the fixing of cellular PVC-UE trims.

FloTop Stainless Steel plastic headed nails provide a maintenance free fixing in some applications.

Product	Code	Size
Architrave-Pencil Round:		
	WT1	45x6mm
	WT2	65x6mm
	WT3	95x6mm
D Section:		
	WT4	28x6mm
Edge Fillet:		
	WT5	20mm
Quadrant:		
	WT6	12mm
	WT7	19mm
Square:		
	WT8	15x13mm
Board End Mouldings:		
	WT14	42x50mm (pair)
	WT15	42x31.5mm (1 Item)
Hockey Board End Mouldings:		
	WT16	300mm
Window Board Channel:		
	RT21	10x5mm
Angle:		
	WT30	100x80mm 90° Hollow
	WT31	25x25mm 90° Rigid
	WT32	50x50mm 90° Rigid
	WT36	25x25mm Flexi
	WT37	35x35mm Flexi
	WT38	75x75mm Flexi

Golden Oak (WG)

Black Ash (WB)

Rosewood (WR)

When ordering please add foil reference to code required, e.g. WT1 WG
