

Rainwater Diverter and Access Pipe

FloPlast's Rainwater Diverter and Access Pipe are cost effective and maintenance free solutions to aid the storage of water and clear blockages.

FloSaver benefits:

The FloPlast Rainwater Diverter saves valuable rainwater for general garden use. It allows rainwater to flow from the downpipe directly into a water butt.

- Saving water.
- Saving the environment.
- Saving money.
- Easy to fit.
- Prevents excess overflow from the butt; designed to bypass the diverter and continue down the pipe.
- Fits 65mm Square, 68mm and 80mm Round PVC-U rainwater pipes.

Access Pipe Benefits:

The Access Pipe saves time by allowing a simple entry when inspection is required.

- Easy to clear blockages from the downpipe.
- Available for both 68mm Round and 65mm Square downpipes.
- Eliminates the need to inspect the downpipe from above.
